Apurba Deep Thapaliya

Worcester, MA | 857-579-3075 | apurba.thapaliya@gmail.com | linkedin.com/in/apurba-thapaliya

EDUCATION

Master of Science in Data Analytics | Expected May 2027
Clark University | *Worcester, MA*

Bachelor of Science in Computer Science and Information Technology | 2024
Deerwalk Institute of Technology | *Kathmandu, Nepal* | GPA: 4.0/4.0

SKILLS

Languages: SQL, Python (pandas, NumPy, scikit-learn), PHP
Analytics & Visualization: Tableau, Excel, Jupyter, Data Visualization, Data Cleaning, ETL, Reporting
Cloud & Databases: AWS (Amazon S3, Amazon Athena), MySQL, PostgreSQL, Stored Procedures
Machine Learning & AI: Classification, LLM Evaluation, RLHF, Supervised Fine-Tuning (SFT), Prompt Engineering

EXPERIENCE

Graduate Assistant Jan 2026 – Present
Clark University, Worcester, MA

- Track event planning & event data on Excel. Create reports for Dean of College and Dean of Students Office.
- Event planning and execution for Deans' offices. Serve as point person for communicating with stakeholders in other departments.
- Process student and faculty requests that come into the office. Write correspondence for leadership.

Advanced AI Data Trainer Sep 2024 – Aug 2025
Invisible Technologies, Remote

- Helped improve model accuracy by 30% on NVIDIA Arcade AI project by generating and testing RLHF and Supervised Fine-Tuning (SFT) data for training large language models (LLMs).
- Generated LLM training data for several client projects as well (including one for Google).
- Scored/model ranked responses from models based on quality rubrics. Wrote/testing prompts requiring Python, SQL, math.
- Quality tested other trainers' work and made corrections to prompts not meeting guidelines.
- Extracted, preprocessed, and mined training data with teammates worldwide.

Data Engineering Intern May 2024 – Aug 2024
Deerhold Nepal Ltd., Nepal

- Developed Python scripts to standardize public hospital Machine-Readable Files (MRFs) released through CMS Hospital Price Transparency Rule. Checked prices against each other for errors and inconsistencies.
- Uploaded standardized data to Amazon S3 buckets and queried prices across hospitals using SQL in Amazon Athena.
- Preprocessed raw healthcare data from around the U.S. into standard format and mapped between healthcare coding standards.
- Created Tableau dashboards and Excel charts for analytic reporting. Wrote SQL stored procedures.

PUBLICATIONS

Weekday Stratified Clinical Patient Appointment No-Show Analysis Using Machine Learning
*E. Tokgoz, **A. D. Thapaliya**, and N. Rimal. ESCS'26, Springer Nature, July 2026.*

- Built a Python machine learning model that predicts patient no-shows, stratified by weekday.
